4.14 <i>Extra-curricular provision (Autumn Term)</i> .....	28
4.15 <i>Transport to/from school</i> .....	29

## 1.0 Introduction

The Considerations for COVID-19 Risk Assessment is a development document which will help schools identify relevant hazards and control measures. It is important that you don't just put your school name to it as that would not satisfy the law - and would not protect your employees.

Even where the hazards are the same, the control measures you adopt may have to be different from those in the examples to meet the particular conditions in your workplace. It is important to remember that a risk assessment is only effective if you and your staff act upon the controls included within. You must follow through with any actions required and review it on a regular basis, especially if you have identified that your planned control measures aren't working, and improvements can therefore be implemented within your school. As a result, any control measures which aren't relevant must be deleted.

The Management of Health and Safety at Work Regulations 1999, place a duty on all employers to make a suitable and sufficient assessment of the risks to the health and safety of their employees, whilst they are at work, and to others who may be affected by the employer's undertakings.

It is recommended that the School's risk assessment procedure should be developed by the Governing Body in conjunction with the Headteacher and members of the School Leadership Team and in accordance with the appropriate legislation the operational day-to-day responsibility for the management of Health & Safety is a School responsibility.<sup>1</sup> The Health and Safety at Work Act 1974 places overall responsibility for health and safety with the employer, this varies with the type of school, the table below details this.

School Type	Employer
Community schools	North Tyneside Council <sup>(2)</sup>
Community special schools	
Voluntary controlled schools	
Maintained nursery schools	
Pupil referral units	
Foundation schools	Schools Governing Body
Foundation special schools	
Voluntary aided schools	
Independent schools	Schools Governing Body or Proprietor
Academies and free schools	The Academy Trust
Multi academy trusts	
* As an occupier of the premises, all school governing bodies still have health and safety responsibilities within the schools, even where they aren't the employer.	

<sup>1</sup> <https://www.gov.uk/government/publications/health-and-safety-advice-for-schools/responsibilities-and-duties-for-schools>

<sup>2</sup> *Under section 29(5) of the Education Act 2002, local authorities have powers to direct health and safety matters relating to school premises or school activities taking place elsewhere in these types of School and should only use these powers when a school's health and safety arrangements are inadequate.*

*The Education Act 2002<sup>3</sup> and the Schools Standards & Frameworks Act 1998<sup>4</sup> also notes that for those Schools they shall comply with any direction given to them by the Local Authority concerning the health and safety of persons on the school's premises or taking part in any school activities elsewhere and in these instances the LA directs those Schools to use the LA Framework Risk Assessments.*

Some schools operate as part of a Public Private Partnership (PPP), Private Finance Initiative (PFI) or Non-Profit Distribution (NPD) arrangement. In these cases, teachers, Teaching Assistants and Administrative staff are typically employed by the local authority. However, some staff in ancillary services, for example catering, caretaking or cleaning staff, may be employed by the organisation contracted to provide these ancillary services.

**The hazards, risks and control measures in this document are non-exhaustive, the school has a duty to ensure that all significant hazards on site are adequately risk assessed with suitable control measures to ensure the risk is low as practicable.**

Schools should share the results of their risk assessment with their workforce. If possible, they should consider publishing it on their website to provide transparency of approach to parents, carers and pupils (HSE would expect all employers with over 50 staff to do so). The Health and Safety Team are currently producing a template statement which will support schools with this process.

## 1.1 Version Control

### Original Format/Template: For Health and Safety Team

<b>Document Title</b>	Considerations for COVID-19 Risk Assessment Development (DRAFT)	<b>Document Reference</b>	HSGUI 036	<b>Version Number</b>	2.0
<b>Reviewer</b>	Health and Safety Team	<b>Previous Review</b>	15 June 2020	<b>Issue Date</b>	08 July 2020
<b>Point Number</b>	<b>Reference Point/ Number</b>	<b>Comments</b>			
1 (15/06/20)	Whole Document	Formatted to include version control systems and action plan			
2 (15/06/20)	1.0	Provided an introduction and amended form to provide it as a risk assessment template rather than a sample

		<p>practical lessons will take longer than normal to complete.</p> <ul style="list-style-type: none"> <li>• Long and complex multi-step practicals will be avoided apart from with very experienced pupils.</li> <li>• Practical tools and equipment will be setup at the pupil workstations. This will be done before the lesson by staff who follow social distancing rules at all times.</li> <li>• Where pupils need to move around the room, they should raise their hand to attract the teacher’s attention and ask permission to move to use a particular piece of equipment. The teacher can then monitor movement and ensure that only one person is in any zone.</li> <li>• In food rooms, pupils may need to access fridges during a practical activity - minifridges or cool boxes will be purchased and used at each workstation, rather than expecting pupils to move around the room to collect chilled items. Non-chilled ingredients will be at the pupil workstation prior to starting the activity.</li> <li>• Once the practical has finished, pupils will tidy up their equipment, wash their hands using soap and water and then leave the room in an orderly fashion similar to their arrival into the room. Then the teachers / technician will clear away equipment used.</li> <li>• At the end of any practical session, all equipment and spare material will be cleared away by the technician and wiped with a suitable cleanser prior to being stored away for future use. Machines or other fixed equipment that has been used will be wiped clean and readied for use in the next session. Waste material will be placed in a suitable bin and removed from the room prior to the next session.</li> <li>• Demonstrations will not involve pupils crowding around a</li> </ul>
